

NOTICE TO EMPLOYEES

State of Connecticut Workers' Compensation Commission

Revised 10-01-2021

The Workers' Compensation Act (Connecticut General Statutes Chapter 568) requires your employer, The City of Waterbury and the Waterbury BOE

to provide benefits to you in case of injury or occupational disease in the course of employment.

Section 31-294b of the Workers' Compensation Act states "Any employee who has sustained an injury in the course of his employment shall immediately report the injury to his employer, or some person representing his employer. If the employee fails to report the injury immediately, the administrative law judge may reduce the award of compensation proportionately to any prejudice that he finds the employer has sustained by reason of the failure, provided the burden of proof with respect to such prejudice shall rest upon the employer."

An injury report by the employee is NOT an official written notice of claim for workers' compensation benefits; the Workers' Compensation Commission's Form 30C is necessary to satisfy this requirement.

NOTE: You must comply with P. A. 17-141 (see next box, below) when filing a compensation claim.

If your employer has listed a location below, you **MUST** file your compensation claim there.

When filing your claim, you are also required – by law – to send it by certified mail.

If blank below, ask your employer where to file your claim.

City of Waterbury and Waterbury Board of Education Medical Care Plan

To All Employees:

The City of Waterbury and Waterbury Board of Education has elected to become a participating employer in an Employers Medical Care Plan filed with the Connecticut Workers' Compensation Commission. The Employer Medical Care Plan allows The City of Waterbury and Waterbury Board of Education to direct employees to a list of Medical Providers for treatment of work-related injuries and illnesses. **Failure to do so may suspend an employee's right to receive Workers' Compensation benefits, subject to the order of a Worker's Compensation Commissioner.**

The City of Waterbury and Waterbury Board of Education Employer Medical Care Plan is part of **The PMA Insurance Group Medical Care Plan** and of PMA Management Corp. of New England, the employer's risk management firm. The effective date of the Employers Medical Care Plan is January 1, 2025.

The City of Waterbury and Waterbury Board of Education Workers' Compensation medical care plan is applicable for injuries occurring on or after the plan's effective date. If you have an established and approved Workers' Compensation claim and are currently being treated for that injury, there are no changes. You can continue your treatment with your established treating provider until treatment for your injury is completed.

As an employee of The City of Waterbury and Waterbury Board of Education, you must report a work-related injury or illness to your supervisor, who will complete a **First Report of Injury Form** before the end of the shift. If you require medical intervention or evaluation for your injury or illness, you will be directed to your choice from a primary care center to receive treatment. If you require further medical treatment, **notify your department supervisor. If you have a medical emergency, go to the nearest emergency department.**

You may obtain follow-up medical care from providers listed on The PMA Companies Insurance Group Medical Care Plan directory. Should your injury require specialty treatment not available in The PMA Insurance Medical Care Plan, a consultant from an approved list established by the Workers' Compensation Commission may be chosen for your treatment. Please see The City of Waterbury's Risk Manager for guidance.

Please review the medical care plan guide, and sign the Employee Acknowledgment, recognizing your understanding and that you have read and understand the process for treatment of work-related injuries or illnesses.

If you are out of work as a result of your work-related injury or illness, you will be contacted regularly by the PMA Management Corp. of New England Claims Coordinator to determine that your medical needs are met. You are responsible for providing on-going updates regarding your work status to your supervisor. Each of you is an important member of **The City of Waterbury and Waterbury Board of Education** and the purpose of this program is to ensure you receive appropriate medical treatment in a timely manner to facilitate recovery. If you have any questions during this process, please contact Risk Management at 1-203-574-6840 ext.7017

The Management staff of The City of Waterbury and Waterbury Board of Education and your assigned adjuster at PMA Companies are available to assist you from the time of your injury through recovery and return to work.

QUESTIONS ABOUT WORKERS' COMPENSATION

You May Ask About Workers' Compensation Protection.

1. What is Workers' Compensation?

The purpose of Workers' Compensation is to provide injured workers and those who depend upon them with a means of support when they are unable to work because of a **work-related** disability. Its purpose also is to bring about a prompt recovery.

2. What is a "Work-Related Injury or Illness"?

The term "Work-Related Injury or Illness" is used to describe any injury or disease which results from work or working conditions and which occurs during the employee's service to the employer.

3. Who administers a Workers' Compensation claim?

PMA Companies is the claims administrator for The City of Waterbury and Waterbury Board of Education. They administer all compensation benefits an injured worker is entitled to receive. If you have any questions about Workers' Compensation, contact the City's Risk Management Department at 203-574-6840 ext. 7017 or PMA Companies customer service center at 1-888-476-2669.

4. How do you qualify for benefits?

Report the injury or illness to your supervisor immediately. The employee must specify what, where, when and how it happened and provide enough information so that your supervisor can complete the **First Report of Injury form**.

Prompt reporting is key. Benefits are automatic for accepted work-related injuries or illnesses.

5. What if you need prescription drugs?

Employees requiring prescriptions must have them filled at a pharmacy that participates with PMA's Pharmacy Benefit Manager, Cadence Rx. Most pharmacies will participate in this network but please contact Cadence Rx at 1-888-813-0023 to confirm.

6. What if you are currently being treated for a workers' compensation injury or illness?

The City of Waterbury and Waterbury Board of Education Workers' Compensation medical care plan is for injuries occurring on or after the plan's effective date. If you have an established and approved Workers' Compensation claim and are currently being treated for that injury, there are no changes. You can continue your treatment with your established treating provider.

7. Where do you obtain medical treatment?

Prompt medical care is a key element to a fast recovery from an injury or illness. Emergency medical care and medical follow-up treatment can often mean the difference between complete recovery from an injury or lasting physical disability.

If you become injured at work, you should report your injury to your department supervisor and proceed to one of the plan's Occupational Health that is listed. If you become injured when the centers are closed, you should go to the nearest emergency department.

8. What if you need continuing medical treatment?

In the event an employee's injury or illness requires additional medical care beyond the initial visit to a primary care center or the emergency department, a primary treating physician within the City of Waterbury's medical Care Plan must be selected. If the specialty is not in our network then call PMA Companies and they will assist in locating a provider who is in the CT Workers' Compensation Network. This physician will continue to provide necessary treatment and referrals to other specialists if or when needed.

Employees are required to obtain treatment from providers in the approved plan. Failure to do so may suspend an employee's right to receive Workers' Compensation benefits, subject to the order of a Workers' Compensation Commissioner.

Should your injury require specialty treatment not available in The City of Waterbury's Medical Care Plan, the provider must participate in the CT Workers' Compensation medical plan.

9. What do you do if the doctor releases you to modified/light duty work?

Bring your physician's completed copy of the "Work Status Report" to your department supervisor or HR representative immediately. The City of Waterbury and Waterbury Board of Education will try to provide you with a temporary, modified duty position to meet your doctor's specified restrictions. If you have any questions regarding the Modified / Light Duty process, please contact your department supervisor or HR representative.

Once your Medical Provider releases you to return to full duty, the temporary, disability wage support stops.

10. What if you have further questions?

If you have further questions regarding your Workers' Compensation benefits, please contact your assigned adjuster from PMA Companies at 1-888-476-2669. As always you can contact The City's Risk Management Department at 203-574-6840 ext.7017

11. What if you have questions about your medical treatment?

If you have questions regarding your medical treatment, you can contact PMA at 888-476-2669 to request a review of the medical care and services being provided to you.
