GENERAL STATEMENT OF DUTIES:

Serves as a technical resource to one or more departments or business units. This position may be assigned as part of the central Information Technology Department or as an employee within a specific department, business unit or enterprise operation. Takes overall responsibility for the assigned ERP (Enterprise Resource Planning) software applications, including working with I.T. personnel to insure that all releases and updates are applied in a timely manner, that upgrades and changes are tested and deployed according to City I.T. policies and industry best practices, and that users are properly trained on new system features. Attends training classes and learns the City's functional use of the software. Serves as liaison to software vendors and I.T. personnel. May act as System Security Officer for one or more ERP systems and assign user profiles and passwords. Logs, troubleshoots and resolves software issues utilizing software support services and IT and business staff. Becomes a subject matter expert on the specific assigned ERP applications and serves as backup to system users for normal daily operations. Continually evaluates opportunities for expanding and improving functional use of software. Develops and administers employee training classes on functional use of ERP modules, report writing software and Microsoft suite of products. Recommends and implements Business Process Improvements that increase the efficiency and effectiveness of employee & organizational use of the assigned ERP software systems. May act as Project Manager for system upgrades, including management of project budget and resources.

DISTINGUISHING FEATURES OF THE CLASS:

This is a highly responsible administrative and technical position involving supervisory responsibility, business systems analysis, configuration and management of ERP software applications, and training of system users. Develops curricula and provides software training for staff. Employee analyzes new software features, writes process documentation and designs work flows. Reports to either the I.T. Network Manager or to a designated department, business unit or enterprise operations manager. Insures compliance with City security, network access, and technology usage and business policies.

EXAMPLES OF WORK: (Illustrative Only)

(Illustrative Only) Becomes a Subject Matter Expert on departmental business processes and specific ERP software systems. Coordinates all systems upgrade and development tasks and may supervise staff depending on the specific assignment. Serves as primary contact for assigned ERP system vendors and coordinates all upgrades with users, I.T. staff, and other personnel. Places and follows up on support calls and insures that operational issues are addressed in a timely manner. Researches, analyzes and reconciles system data and interfaces. Uses database reporting tools such as Crystal Reports, SQL Server Reporting Services, or other packages to develop custom reports and data downloads. Works with external providers such as banks and online services to insure the accuracy and proper flow of downloaded and uploaded data files. Uses MS Excel, Access, Word, PowerPoint, SharePoint, Exchange, and other tools to manage data and prepare presentations and reports. Extracts data from the ERP system for regulatory and other reporting purposes. Does related work as required. Emphasis on process improvement and training and documentation of procedures. Maintains a high level of awareness and enthusiasm for new features and improvements.
